INDEX
to volume 17 jan-dec 1989

authors

Alpert JS: Athletic heart syndrome, Jul, p 103; (correction) Sep 89, p 56
Applegate EA: see O'Toole ML, Dec, p 90
Armstrong LE: see Hubbard RW, Jun, p 97
Askew EW: Nutrition for a cold environment, Dec, p 76
Aubry MJ: Sudden death of an ice hockey player (case conference), Jan, p 53

Bach BR Jr: see Noble HB, Jun, p 135
Barnes R: see Rodeo SA, Apr, p 132
Bar-Or O: Trainability of the prepubescent child, May, p 64; (correction) Jul, p 26
Bazzoli AS: Heel pain in recreational runners, Feb, p 55
Bernard D: see Roy M, Mar, p 119
Billings JH: How to help cardiac patients reduce risk factors, Sep, p 71
Bishop PA: Physiologic responses to treadmill and water running, Feb, p 87
Blasingame J: see Rice S, Jun, p 129
Blessing DL: see Williford HN, Mar, p 95
Bloom MH: Differentiating between meniscal and patellar pain, Aug, p 94
Blyth CS: see Mueller FO, Oct, p 51
Bokor DJ: see Cross MJ, Jul, p 79
Bouter LM: Causes and prevention of injury in downhill skiing, Nov, p 80
Boyer JL: see Van Camp SP, Apr, p 120
Boyer JL: see Van Camp SP, May, p 83
Bracker MD: Cluster headache among athletes (case conference), Feb, p 146
Briner WW Jr: Anteroinferior tibiofibular ligament injury: not just another ankle sprain, Nov, p 63
Brown KW: see Storey MD, Sep, p 84
Buroker KC: Does postexercise static stretching alleviate delayed muscle soreness?, Jun, p 65

Calabrese LH: AIDS and athletes, Jan, p 126
Cantu RC: see Aubry MJ, Jan, p 53
Cantu RC: see Mueller FO, Oct, p 51
Cantu RC: see Tobin WE, May, p 145
Cantwell JF: see Sparling PB, Mar, p 190
Carr DE: see Briner WW Jr, Nov, p 63
Carretta R: see Matin P, Sep, p 124
Castor CW: see Ike RW, Feb, p 128
Cilliers JF: see Schwellnus MP, Aug, p 55
Clain MR: Overuse injuries in children and adolescents, Sep, p 111
Clark N: Social drinking and athletes, Oct, p 95
Cohen GC: Intense exercise during the first two trimesters of unapparent pregnancy (case reports), Jan, p 87
Crosby LA: Subtalar dislocation in a basketball player (case report), Oct, p 145
Cross MJ: Acute knee injury in a rock musician (case conference), Jul, p 79
Curl WW: see Tomasin JD, Jun, p 114

Darga LL: Endurance training in middle-aged male physicians, Jul, p 85
Davidson TM: First aid and management of rattlesnake bites (part 2 of 2), Apr, p 160
Davidson TM: Rattlesnakes: the animal and the venom (part 1 of 2), Apr, p 148
Deutsch A: see Shellock FG, Sep, p 99
Dimeff RJ: Preventing cauliflower ear with a modified tie-through technique, Mar, p 169
Dolan C: see McKeag DB, Jul, p 108
Douglas PS: see O'Toole ML, Dec, p 90
Dumitru D: Subsartorial entrapment of the saphenous nerve of a competitive female bodybuilder (case report), Jan, p 116
Dyment PG: Controversies in pediatric sports medicine (commentary), Jul, p 57

Eichner ER: Chronic fatigue syndrome: searching for the cause and treatment, Jun, p 142
Eichner ER: Does running cause osteoarthritis? (an epidemiologic perspective), Mar, p 147
Eichner ER: Gastrointestinal bleeding in athletes, May, p 128
Estwanik JJ: Levator scapulae syndrome, Oct, p 57

Fabian RL: Sports injury to the larynx and trachea, Feb, p 111
Fields KB: Head injuries in soccer, Jan, p 69
Floyd T: Tibial tubercle avulsion (case report), Aug, p 79
Foster C: Physiologic testing: does it help the athlete? (commentary), Oct, p 103
Fox JM: see Shellock FG, Sep, p 99
Frazier S: see Bishop PA, Feb, p 87
Freitas JE: Renal imaging following blunt trauma, Dec, p 59
Friedl KE: Self-treatment of gynecomastia in bodybuilders who use anabolic steroids (case reports), Mar, p 67

Garrick JG: Anterior knee pain (chondromalacia patellae), Jan, p 75
Goldberg B: Injury patterns in youth sports, Mar, p 174
Goldstein D: Clinical applications for exercise, Aug, p 82
Good JE: Women in the military academies: US Navy (part 1 of 3), Feb, p 99
Grana WA: see Pascale M, Mar, p 156
Green GA: Peroneal nerve palsy induced by cryotherapy (case conference), Sep, p 63
Greenland P: ECG monitoring in cardiac rehabilitation: is it needed?, Feb, p 75
Griffin R: Radiographic study of elbow injuries in professional rodeo cowboys, Jun, p 84

Hagerman FC: Effects of a long-term fitness program on professional baseball players, Apr, p 101
Halseth J: see Griffin R, Jun, p 84
Harvey J: Acute knee injury in wrestling (case conference), Nov, p 70
Henderson JM: Abdominal pain in a football player (case conference), Aug, p 47
Hershman EB: see Clain MR, Sep, p 111
Hiller WDB: see O'Toole ML, Dec, p 90
Holden N: see Darga LL, Jul, p 85
Hough DO: Primary care sports medicine in the university setting, Aug, p 69
Hough DO: see Dimeff RJ, Mar, p 169
Hubbard RW: Hyperthermia: new thoughts on an old problem, Jun, p 97

Ike RW: Arthritis and aerobic exercise: a review, Feb, p 128
Illis WR: see Darga LL, Jul, p 85
Iwane H: see O'Toole ML, Dec, p 90

Jackson DL: Electrodiagnostic studies of median and ulnar nerves in cyclists, Sep, p 136
Jacobs D: see Bishop PA, Feb, p 87
Jordan SE: see Green GA, Sep, p 63

Kavanagh T: Does exercise improve coronary collateralization? A new look at an old belief, Jan, p 96
Kelley D: see Calabrese LH, Jan, p 126
Klein KM: see Good JE, Feb, p 99
Knipschild PG: see Bouter LM, Nov, p 80
Kozar B: see Lord RH, Oct, p 71
Kuyl JM: see Schwellnus MP, Aug, p 55

Lampman RM: see Ike RW, Feb, p 128
Lang G: see Matin P, Sep, p 124
Lavery KM: see Briner WW Jr, Nov, p 63
Londeree BR: see Thomas TR, May, p 93
Lord RH: Pain tolerance in the presence of others: implications for youth sports, Oct, p 71
Lucas CP: see Darga LL, Jul, p 85

Marcotte G: see Roy M, Mar, p 119
Martin DF: see Tomasin JD, Jun, p 114
Martinez SF: Medical concerns among wheelchair road racers, Feb, p 63
Matin P: Bone scanning for detection of exercise-induced musculoskeletal injury, Sep, p 124
McKeag DB: Overuse syndromes of the lower extremity, Jul, p 108

continued

McKirgan CC: Bone tumors masquerading as traumatic injury, May, p 121
Micheli LJ: see Walsh ZT, Oct, p 112
Millard-Stafford M: Coronary heart disease: risk profiles of college football players, Sep, p 150
Mink JH: see Shellock FG, Sep, p 99
Moskwa CA Jr: Musculoskeletal risk factors in the young athlete, Nov, p 49
Mueller FO: Catastrophic spine injuries in football, Oct, p 51
Murray TF: see Hagerman FC, Apr, p 101

Nagle CE: see Noujaim SE, Oct, p 125
Nicholas JA: see Moskwa CA Jr, Nov, p 49
Nilson KL: see Sutton JR, Apr, p 65
Nisonson B: Acute hemarthrosis of the adolescent knee, Apr, p 75
Noble HB: Lyme disease in a young girl (case report), Jun, p 135
Noujaim SE: Acute scrotal injuries in athletes: evaluation by diagnostic imaging, Oct, p 125

O'Brien SJ: see Rodeo SA, Apr, p 132
Olson MS: see Williford HN, Mar, p 95
O'Toole ML: Iron status in ultraendurance triathletes, Dec, p 90

Pape LA: see Alpert JS, Jul, p 103; (correction) Sep 89, p 56
Pappas AM: Osteochondroses: diseases of growth centers, Jun, p 51
Pascale M: Does running cause osteoarthritis? (an orthopedic perspective), Mar, p 156
Penfold GK: see Schwellnus MP, Aug, p 55
Peterson KD: see Griffin R, Jun, p 84
Petosa S: Women in the military academies: US Air Force Academy (part 2 of 3), Mar, p 133
Picetti GD III: see Floyd T, Aug, p 79

Wheeler KB: Sports nutrition for the primary care physician: the importance of carbohydrate, May, p 106
Wickiewicz TL: see Rodeo SA, Apr, p 132
Williford HN: Is low-impact aerobic dance an effective cardiovascular workout?, Mar, p 95
Windsor RE: see Dumitru D, Jan, p 116
Wright HH: see Rettig AC, Dec, p 65

Yeager K: see Rice S, Jun, p 129
Yesalis CE: see Friedl KE, Mar, p 67

Zachazewski JE: see Green GA, Sep, p 63
Zemper ED: Injury rates in a national sample of college football teams: a 2-year prospective study, Nov, p 100

subjects

Abdomen
duodenal hematoma in a football player, Aug, p 47
Adolescents
controversial issues in sports medicine, Jul, p 57
gymnastics may disrupt growth at the wrist, Aug, p 16
hemarthrosis of the knee in athletes, Apr, p 75
high school football injuries surveyed (NATA), Apr, p 30
hip dislocation in a football player, Oct, p 112
hockey: catastrophic head and neck injuries, Dec, p 115
hockey, violence in, Mar, p 55; (letter) Oct, p 18
injury patterns in sports, Mar, p 174
musculoskeletal risk factors, Nov, p 49
osteochondroses: diseases of growth centers, Jun, p 51
overuse injuries, Sep, p 111
preparticipation screening for sudden cardiac death in athletes (letter), Mar, p 30; (correction) May, p 21
skateboard injuries increasing, Aug, p 15
steroids used by boys to enhance appearance, Feb, p 35
tibial tubercle avulsion (case report), Aug, p 79
continued

Aerobic dance
injuries in instructors and students, Apr, p 52
and intravascular hemolysis, Aug, p 55
low-impact: effective cardiovascular workout?, Mar, p 95
Aging
cardiovascular aspects, Apr, p 120
exercise guidelines for the elderly, May, p 83
weight training for the elderly, Nov, p 134
Alcohol
abuse: intervention and treatment, Apr, p 192
social drinking and athletes, Oct, p 95
Altitude
sickness, portable hyperbaric chamber for, Apr, p 28
American College of Sports Medicine
public information campaign launched, May, p 34
team physician course (first of three) dispenses advice to 400, May, p 40
Ankle injuries
anteroinferior tibiofibular ligament, Nov, p 63
Arm injuries
fracture halts Dravecky's comeback from cancer surgery, Oct, p 21
Arthritis
and aerobic exercise: a review, Feb, p 128
King, Billie Jean, manages it, Feb, p 173
and running, Mar, p 147; p 156
Artificial surfaces
safety of, vs grass, Oct, p 158
turf toe, Apr, p 132
Asthma
exercise-induced, Jul, p 125
Athletic care
medical, at endurance events (letter), Mar, p 30

Back
flexibility, exercises for, Oct, p 171
Back injuries
golf: exercise for rehabilitation, Aug, p 109
Back pain
exercise as treatment, Sep, p 185
Baseball
fitness program benefits major league players, Apr, p 101
fitness for Rose (Pete) and Cincinatti Reds, Apr, p 188
hardness of ball limited by new safety standard, Dec, p 19
tobacco, smokeless: use high among professional players, May, p 36
Baseball injuries
Mantle, Mickey: knee problems continue, Jun, p 170
Basketball injuries
bone spurs: surgery, rehabilitation for Larry Bird, Mar, p 36
subtalar dislocation (case report), Oct, p 145
tibial tubercle avulsion in a 14-year-old boy, Aug, p 79
Bicycling
massage, effects on performance, Oct, p 166
Bicycling injuries
median and ulnar neuropathy, electrodiagnostic studies of, Sep, p 136
Bird, Larry
surgery, rehabilitation for bone spurs, Mar, p 36
Blood diseases
intravascular hemolysis and aerobic dance, Aug, p 55
Blood doping
erythropoietin: dangerous new form?, Aug, p 114
Bodybuilding
steroids and gynecomastia, Mar, p 67
subsartorial entrapment of the saphenous nerve (case report), Jan, p 116
Bone
mass and exercise in postmenopausal women, Feb, p 48
osteochondroses in children and adolescents, Jun, p 51
tumors mistaken for sports injuries, May, p 121
Boxing injuries
brain, chronic: is it avoidable?, Nov, p 126
cauliflower ear, prevention with tie-through technique, Mar, p 169
Brain injury:
chronic, in boxing: is it avoidable?, Nov, p 126
Bursitis
management of, Nov, p 115

Camps
precamp physical examination, value of, May, p 167
Cancer
Dravecky, Dave: arm fracture halts comeback from surgery, Oct, p 21
skin: midday sun hazardous, Jul, p 16
skin: risk will increase with ozone loss, Apr, p 27
Cardiac rehabilitation
carbon monoxide may induce angina in patients who exercise, Jun, p 34
ECG monitoring in, Feb, p 75; (letter) May, p 20
exercise and coronary collateralization, Jan, p 96
reducing risk factors, Sep, p 71
strength training, Mar, p 190
Children in sports
controversial issues, Jul, p 57
fitness study: America's youth slower, stronger, fatter, Dec, p 20
gymnastics may disrupt growth at the wrist, Aug, p 16
hockey, Pee Wee, body checking in, Mar, p 119; (letter) Oct, p 18
hockey, violence in, Mar, p 55; (letter) Oct, p 18
hypertensive, appropriate activities for, Sep, p 164
injury patterns, Mar, p 174
musculoskeletal risk factors, Nov, p 49
osteochondroses: diseases of growth centers, Jun, p 51
overuse injuries, Sep, p 111
pain tolerance, Oct, p 71
skateboard injuries increasing, Aug, p 15
training prepubescents, May, p 64; (correction) Jul, p 26
Coaching
stress, role of, in Ditka's heart attack, Jan, p 40
Cold
nutrition for cold environment, Dec, p 76
Cryotherapy
and peroneal nerve palsy (case conference), Sep, p 63

Death
CHD: risk increases with low fitness level, p 42
football: 17 in 1988, Sep, p 37
skiing: high-speed collisions with stationary objects, Feb, p 47
sudden cardiac, preparticipation screening for, in high school and college athletes (letter), Mar, p 30; (correction) May, p 21
sudden, in a hockey player, Jan, p 53; (letter) Apr, p 56
Diabetes
football player Wade Wilson manages disease and career, Dec, p 107
management of, in athletes, Dec, p 45
Diagnostic imaging
bone scanning to detect exercise-induced musculoskeletal injury, Sep, p 124
kinematic MRI for evaluating patellar tracking, Sep, p 99
renal, after blunt trauma, Dec, p 59
scrotal injury, acute, Oct, p 125
Directories
sports medicine groups, Jan, p 145
Ditka, Mike
heart attack and stress, Jan, p 40
Diving injuries
spine, Jul, p 143
Dravecky, Dave
fracture halts comeback from cancer surgery, Oct, p 21
Drug testing
USSR, US team up to combat drug use, Aug, p 16
Drugs
caffeine and athletes, Jan, p 193
erythropoietin and ethics, Aug, p 39
erythropoietin and sports performance, Aug, p 114

Ear injuries
cauliflower ear, prevention with tie-through technique, Mar, p 169
Elbow injuries
bursitis, Nov, p 115
in rodeo cowboys, Jun, p 84
Electrocardiograms
in cardiac rehabilitation, Feb, p 75; (letter) May, p 20
Emergencies
airway obstruction, Oct, p 173; Nov, p 145
continued

Heimlich maneuver, for choking, Dec, p 36
initial management of, Sep, p 194
snakebite: rattlesnake, first aid and management, Apr, p 160
Equipment
baseball, softball hardness limited by new safety standard, Dec, p 19
knee braces, prophylactic, in football: West Point study supportive, Dec, p 19
Ergogenics
caffeine and athletes, Jan, p 193
Ethics
and erythropoietin, Aug, p 39
Exercise
aerobic dance: effective cardiac workout?, Mar, p 95
aerobic, low-impact, Mar, p 264
and arthritis, Feb, p 128
astronaut fitness, Jun, p 175
and bone mass in postmenopausal women, Feb, p 48
calcium and bone density, Nov, p 27
candy before, Nov, p 24
and coronary collateralization, Jan, p 96
and fibromyalgia, Sep, p 180
fitness movement: reaching only the wealthy?, Feb, p 200
flexibility, for the back, Oct, p 171
flexibility, for the hip, Dec, p 141
for gluteus maximus, Feb, p 217
guidelines for the elderly, May, p 83
how much is enough?, Jul, p 150
for lower leg muscles, Aug, p 129
and meals, timing of, Nov, p 151
potentially dangerous, Jan, p 187; (letter) Jun, p 20
and pregnancy, unapparent, Jan, p 87
as prevention of heart disease, Mar, p 219
roller skating, in-line, for fitness, Feb, p 48
running vs nonrunning physicians, study of, Jul, p 85
stretching, and delayed muscle soreness, Jun, p 65
and subarachnoid hemorrhage, May, p 145
for thigh muscles, Apr, p 213; Jun, p 185
walking vs running, energy cost of, May, p 93
water: wave of the future?, Apr, p 203
Exercise prescription
for back pain, Sep, p 185
for chronic pain, Mar, p 203; Jul, p 28
clinical applications, Aug, p 82
Exercise testing
physiologic: does it help the athlete?, Oct, p 103
Eye injuries
cataracts a risk for outdoor athletes, Mar, p 210
swimming with contact lenses, Sep, p 34

Female athletes
at the Air Force Academy, Mar, p 133
at the Military Academy, Apr, p 89
at the Naval Academy, Feb, p 99
stress fractures in an amenorrheic marathoner, Apr, p 65
Finger injuries
mallet finger, Feb, p 140
skier's thumb, Dec, p 65
Flexibility
back, exercises for, Oct, p 171
hip, exercises for, Dec, p 141
Foot
athlete's, Oct, p 78
tennis shoe dermatitis, Dec, p 123
Foot injuries
heel pain from running injuries, Feb, p 55
plantar fasciitis, Jan, p 36; (letter) Mar, p 30
subtalar dislocation in a basketball player, Oct, p 145
turf toe, Apr, p 132
Football
high school: padded goalposts required by 1990, Apr, p 49
professional players health problems of, Jan, p 168
Football injuries
artificial turf vs grass, Oct, p 158
broken legs in two Super Bowl players, Mar, p 46
college: a 2-year prospective study, Nov, p 100
duodenal hematoma (case conference), Aug, p 47
high school (NATA survey), Apr, p 30
hip dislocation (case conference), Oct, p 112
knee braces, prophylactic: West Point study supportive, Dec, p 19
spine, catastrophic, Oct, p 51
turf toe, Apr, p 132
Fractures
arm, halts Dravecky's comeback from cancer surgery, Oct, p 21
leg, in two Super Bowl players, Mar, p 46
Frostbite
management of, Jan, p 134

Gastrointestinal function
bleeding, in runners and other athletes, May, p 128
Golf injuries
back: exercise program helped Stewart (Payne) return to play, Aug, p 109
Government agencies
National Institute on Drug Abuse plans major study of steroid abuse, Jul, p 16
Groin injuries
scrotal, acute: diagnostic imaging, Oct, p 125
Gymnastics
growth changes at the wrist in children, Aug, p 16
Gynecomastia
in bodybuilders who use steroids, Mar, p 67

Handicapped athletes
wheelchair racers, medical concerns of, Feb, p 63
Head injuries
catastrophic, in high school hockey, Dec, p 115
in soccer, Jan, p 69
Headache
cluster, management of, Feb, p 146; (letter) Sep, p 56
subarachnoid hemorrhage and exercise, May, p 145
Heart disease
aging, exercise, and cardiovascular function, Apr, p 120
angina: carbon monoxide may induce in cardiac patients who exercise, Jun, p 34
athletic heart syndrome, Jul, p 103; (correction) Sep, p 56
death risk increases with low fitness level, Jan, p 42
exercise and coronary collateralization, Jan, p 96
exercise as prevention, Mar, p 219
reducing risk factors in patients, Sep, p 71
risk factors in college football players, Sep, p 150; (letter), Dec, p 15
stress, role of, in Ditka's heart attack, Jan, p 40
stroke risk higher with low fitness level, Sep, p 37
weight training and cardiovascular risk, Jun, p 34
Heat Stress
classification system for collapse at endurance events, May, p 49
hyperthermia, Jun, p 97
saunas, steam rooms, hot tubs, May, p 188
Heimlich maneuver
history and description, Dec, p 36
Hematuria
diagnostic imaging, renal, Dec, p 59
Hip injuries
dislocation in a high school football player, Oct, p 112
Hockey
Pee Wee, body checking in, Mar, p 119; (letter) Oct, p 18
youth, violence in, Mar, p 55; (letter) Oct, p 18
Hockey injuries
death, sudden, in a player, Jan, p 53; (letter) Apr, p 56
Hartsburg, Craig: getting out smarter than playing hurt, Mar, p 215
high school: catastrophic head and neck, Dec, p 115
Horseback riding
an overview, Mar, p 250
Hypertension
children, appropriate activities for, Sep, p 164
Hyponatremia
sports-related (letter), Mar, p 30

Industry fitness
employee health programs, Mar, p 226
Infectious disease
chronic fatigue syndrome, Jun, p 142; p 157
herpes, oral, and sun exposure, Feb, p 21

continued

International sports medicine
USSR, US team up to combat drug use, Aug, p 16

Joints
running and arthritis, Mar, p 147; p 156

King, Billie Jean
arthritis didn't stop her, Feb, p 173
Knee injuries
acute, in a rock musician, Jul, p 79
acute, in a wrestler, Nov, p 70
braces, prophylactic, in football: West Point study supportive, Dec, p 19
chondromalacia patellae, Jan, p 75; (letter) May, p 21; (letter) Jun, p 22; (letter) Sep, p 56
hemarthrosis in adolescent athletes, Apr, p 75
Mantle, Mickey: problems continue, Jun, p 170
meniscal and patellar pain, distinguishing between, Aug, p 94
patellar tendinitis in a 29-year-old woman, Jun, p 129
patellar tracking abnormalities: kinematic MRI for evaluation, Sep, p 99
subsartorial entrapment of the saphenous nerve in a bodybuilder, Jan, p 116

Larynx
injuries, management of, Feb, p 111
Law and legal medicine
litigation: questioning the athlete's right to sue, Mar, p 240
steroids, anabolic: Congress considers bill to ban distribution by mail, May, p 34
Leg
lower, exercises for, Aug, p 129
thigh muscles, exercises for, Apr, p 213; Jun, pn 185
Leg injuries
overuse syndromes, Jul, p 108
tibial tubercle avulsion in a 14-year-old boy, Aug, p 79
Ligaments
anteroinferior tibiofibular injury, Nov, p 63
Lyme disease
in a young girl, Jun, p 135

Mantle, Mickey
knee problems continue, Jun, p 170
Marathons
collapse: classification system for, May p 49
hyperthermia: causes, management of, Jun, p 97
medical coverage of (letter), Mar, p 30
Menstruation
exercise and PMS, Apr, p 168
Military
training, Army, refined to reduce injuries, Nov, p 28
women at the Air Force Academy, Mar, p 133
women at the Military Academy, Apr, p 89
women at the Naval Academy, Feb, p 99
Muscle injuries
analgesics, topical: how effective, Feb, p 162
cramps, Sep, p 173
exercise-induced, bone scanning for detection of, Sep, p 124
fibromyalgia, Sep, p 180
soreness, and postexercise stretching, Jun, p 65

National Athletic Trainers' Association
high school football injuries surveyed, Apr, p 30
National Collegiate Athletic Association
survey of sports injuries updated, Apr, p 28
Neck injuries
trauma, fieldside management of, Sep, p 84
Nerves
median and ulnar, electrodiagnostic studies of in cyclists, Sep, p 136
peroneal palsy after cryotherapy, Sep, p 63
Nutrition
calcium and bone density, Nov, p 27
candy before exercise, Nov, p 24
carbohydrate important for competitive athletes, May, p 106; (letter) Oct, p 17
carboloading and endurance, Oct, p 149
for cold environment, Dec, p 76
exercise and meals, timing of, Nov, p 151
iron and athletic performance, Nov, p 26
iron status in ultraendurance triathletes, Dec, p 90
protein: how much do athletes need?, May, p 170

Osteoporosis
bone mass and exercise in postmenopausal women, Feb, p 48
Overuse injuries
in children and adolescents, Sep, p 111
lower extremity, Jul, p 108

Pain
analgesics, topical: how effective?, Feb p 162
chronic, and exercise therapy, Mar, p 203; Jul, p 28
fibromyalgia, Sep, p 180
tolerance, in children vs adults, Oct, p 71
Performance
carboloading and endurance, Oct, p 149
cycling: effects of massage, Oct, p 166
and iron, Nov, p 26
and nutrition, May, p 106; (letter) Oct, p 17
physiologic testing: does it help the athlete?, Oct, p 103
Physicians
and exercise: setting an example, Oct, p 45
finding a niche in sports medicine, Sep, p 51
runners vs nonrunners, study of, Jul, p 85
sports medicine certification for, Feb, p 194
sports medicine training for residents, Mar, p 83

Physiologic studies
responses to treadmill and water running, Feb, p 87
Pregnancy
unapparent, and exercise, Jan, p 87
weight training during, Mar, p 256
Preparticipation physical examinations
for children going to camp, May, p 167
screening for sudden cardiac death in high school and college athletes (letter), Mar, p 30; (correction) May, p 21

Rehabilitation
water running for injured athletes, Feb, p 87
Rodeos
elbow injuries in, Jun, p 84
Roller skating
in-line, fitness benefits of, Feb, p 48
Rugby
injuries: recognition, prevention of, Jun, p 114
Running
and arthritis, Mar, p 147; p 156
benefits of: physicians studied, Jul, p 85
vs walking, energy cost of, May, p 93
Running injuries
bleeding, May, p 128
collapse: classification system for, at endurance events, May, p 49
chondromalacia patellae, Jan, p 75; (letter) May, p 21; (letter) Jun, p 22; (letter) Sep, p 56
heel pain, Feb, p 55
hyperthermia: causes, management of, Jun, p 97
overuse, lower extremity, Jul, p 108
plantar fasciitis, Jan, p 36; (letter) Mar, p 30
stress fractures in an amenorrheic marathoner, Apr, p 65

Safety
bicycle, May, p 175
Saunas
steam rooms, hot tubs, May, p 188
Scuba diving
risks underestimated?, Jul, p 132
Sex
AIDS and athletes, Jan, p 126
Shoulder injuries
levator scapulae syndrome, Oct, p 57
rotator cuff, among professional athletes, May, p 184
Skateboarding
injuries increasing, Aug, p 15
Ski injuries
downhill, causes and prevention, Nov, p 80
fatalities from high-speed collisions with stationary objects, Feb, p 47
thumb, Dec, p 65
Skin diseases
acne vulgaris in the athlete, Feb, p 43
athlete's foot, Oct, p 78
dermatitis, tennis shoe, Dec, p 123

follicultis from hot tub, whirlpool, May, p 150
herpes gladiatorum outbreak in Wisconsin wrestlers, Mar, p 50
herpes, oral, and sun exposure, Feb p 21
Snakebite
rattlesnake: the animal and its venom, Apr, p 148
rattlesnake, first aid and management, Apr, p 160

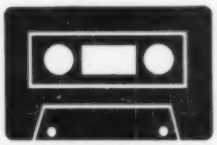
Achilles, from overuse, Jul, p 108
levator scapulae syndrome, Oct, p 57
patellar, in a 29-year-old woman, Jun, p 129
Tobacco
ban on advertising in sports proposed, Oct, p 22
smokeless, use high in professional baseball, May, p 36
Training
fitness program benefits major league baseball players, Apr, p 101
fitness for Rose (Pete) and Cincinatti Reds, Apr, p 188
interval, description of, Sep, p 193
military: Army program refined to reduce injuries, Nov, p 28
prepubescents, May, p 64; (correction) Jul, p 26
Triathlons
iron status in ultraendurance athletes, Dec, p 90
medical coverage of (letter), Mar, p 30

Violence
hockey, youth, Mar, p 55; (letter) Oct, p 18
and steroid abuse, Feb, p 176

Walking
vs jogging, energy cost of, May, p 93
Water Sports
injuries among watercraft paddlers, prevention of, Jun, p 162
water bike injuries increasing, Jun, p 31
Weight training
for cardiac patients, Mar, p 190
and cardiovascular risk, Jun, p 34
for the elderly, Nov, p 134
and pregnancy, Mar, p 256
Wilson, Wade
managing diabetes and football career, Dec, p 107
Wrestling injuries
cauliflower ear, prevention with tie-through technique, Mar, p 169
herpes gladiatorum outbreak in Wisconsin, Mar, p 50
knee, acute (case conference), Nov, p 70

AN IMPORTANT NEW SERIES:



SPORTSMEDICINE FOR FEMALE ATHLETES

Bringing together professional instructors like those featured here would cost thousands of dollars. By comparison, this series costs only $199 for 8 tapes, slides and a vinyl storage album. You'll get several hours of professional sportsmedicine instruction at a fraction of the normal cost.

This cassette series is produced by Teach'em, Inc. for THE PHYSICIAN AND SPORTSMEDICINE. It's the only one of its kind available. So order today. And start doing more to prevent and lessen the severity of injuries.

☐ SM-35 Endurance Training for Girls and Women—Patty S. Freedson, Ph.D., Assistant Professor of Exercise Science, University of Massachusetts, Amherst. 1 cassette . . . $15

☐ SM-36 Strength Training for Female Athletes—Jack Wilmore, Ph.D. 2 cassettes, 31 35mm slides . . . $75

☐ SM-37 Heat Precautions for Female Athletes—Emily M. Haymes, Ph.D. 1 cassette, 14 35mm slides . . . $35

☐ SM-38 Anemia in Female Athletes—Russell R. Pate, Ph.D. 1 cassette . . . $15

☐ SM-39 Exercise and Sports During Pregnancy—Edwin Dale, Ph.D. 1 cassette, study guide . . . $19

☐ SM-40 Weight Control in Dance and Gymnastics—Leonard H. Calabrese, D.O. 1 cassette . . . $15

☐ SM-41 Chondromalacia of the Patella in Female Athletes—Jack Levine, M.D. 1 cassette, 23 35mm slides . . . $40

☐ Save $20 Order all seven programs in the Sportsmedicine for Female Athletes series for only $199 including a free $5 vinyl album.
